

KNOW HOW IN TERMS OF MOBILES APPLICATIONS

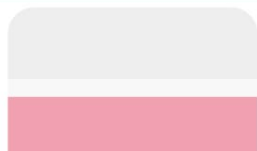

Second Project Meeting

In Greece

Greece, Afens

12.12.21r. - 17.12.21r.

Day one - Sunday

We started the first day of the project mobility by meeting in front of our school to go together to the airport in Warsaw. For most of us, it was our first flight, so we were a bit stressed but at the same time really excited. After a calm flight we arrived at Athens without any complications. Our hotel was in a great location, in the middle of Athens. We were close to Acropolis and the underground which we used every day. There were also students from Italy in our hotel so we could meet them in the evening. We ended the day with a dinner in a Greek restaurant.

Day two - Monday

Monday was the day when we started our project activities. In the morning we went to the underground and went to the partner school in Athens and met people from Greece and Italy. Students from Greece showed us their presentation about Greece so we could learn a lot about this country and its culture. Then we went to the museum where we were told about ancient Greek clothes. After the visit to the museum we went for a walk. When we were already at school we had a chance to try Greek dishes during the lunch. Later we could get to know all the project participants better by playing ice-breaking games and taking part in different integrative activities.

Day three - Tuesday

We started our third day with a trip to the museum where the guide told us about Acropolis and Ancient Greece. Then we went sightseeing around Acropolis. This building is very impressive! In my opinion, the best place in Athens. Then we went for a lunch in Greek restaurant with students from Italy and Greece. It was really nice time together, we could talk and could get to know each other better. In the evening we had dinner with other students with live music. It was a very interesting experience!

Day four – Wednesday

In the morning we got up earlier just to see the changing of the guard in Athens, and then we met our new friends from other countries. We went to the planetarium, where we could see the animation about Greece. After that we went straight to school by bus where we had lunch and some workshops. After lunch we showed each other presentation about making mobile apps. We were divided into several groups of different nationalities to make our own application. We had a chance to practise our communicative and cooperative skills. All the participants did their best to do the task and have fun at the same time.

Day five - Thursday

The best day in Greece. This day we had a trip to Nauplion, which was the first capital of Greece. We saw the Corinthian canal which made a great impression on us. The Nauplion was wonderful, the views were amazing. We went to the restaurant for dinner, where we could spend time together with other project participants. We also had free time to buy souvenirs for our family and friends from Nauplion. We came back to Athens in the evening. It was a very tiring but really exciting day for everyone!

Day six – Friday

The last day in Athens with our new friends. We just went to the Town Hall, to collect our certificates and play a kahoot quiz with everyone. We also had a short lesson of Greek language. Then we had to say goodbye to our new friends, because we had flight to Poland that day. It was a very moving meeting full of hugs and tears, because we really liked these people and it wasn't easy to say goodbye and go back home, but we had to. So in the evening of that day we were in Warsaw and we went back to our homes with the best memories in our lives. For all of us it was the best experience that we have ever had. We will remember these days for a long time and for sure will stay in touch with new friends.
