

**USING MOBILE APPS IN THE LEARNING PROCES**  
**Fourth project meeting in Debar,**  
**North Macedonia**

**28.03.22-01.04.22**

## Day 1 - Sunday

At 5:00 a.m. me and my friends left our school by bus to the Chopin Airport in Warsaw, we were very tired but happy that we will spend the whole week in Northern Macedonia. When we got to the airport we got our tickets and after about two hours we were already on the plane to Vienna, it was my first flight so I was a bit stressed, but I remembered that plane crashes happen once every 10 years so I went to sleep. When we got to Vienna we had a lot of time so we went to eat something for lunch and then I went to explore the airport with Przemek and Kacper and we didn't even get lost. Then we flew from Vienna to the capital of Macedonia -Skopje. After leaving the airport a driver took us from the capital to Debar, the road was very long, roads in Macedonia are twisted like spaghetti, really We arrived at the hotel late in the evening, however everyone came to welcome us, it made a very good impression on me next we had dinner and I with the boys went to the pool and at 11 p.m. returned to the room to go to sleep.

## Day- 2 Monday

after breakfast at the hotel, we all went to school, where we met Macedonians and everyone showed their presentations about their countries, we had free time, so we could meet people from other countries and eat or drink something. when everyone knew each other better, we went to the town hall to meet the mayor of the city, they have very comfortable chairs there, after visiting the town hall, we went to a restaurant for dinner, next we quickly returned to school and learned a traditional wedding dance, probably a wedding dance ... the dance was quite slow and simple but honestly I liked it very much, after school we came back to hotel and eat dinner we were a little bit tired, so I proposed to watch some macedonian television, Macedonian is similar to Polish, so we tried to understand what the program was about, before we went to sleep we unpacked and talked about our day.

## **Day - 3 Tuesday**

**On the third day we visited the old town in Ohrid, it was built mainly on a hill, so we went up all the time, at the very top there was a very old castle which we visited, then we went on a boat trip where we ate burgers with fries, normally I would write that we had dinner but we ate VERY GOOD HAMBUGERS WITH FRIES, I love it, after the boat trip we had free time for shopping, I wasn't interested in typical souvenirs such as magnets or something, so I bought a local Macedonian band CD at the bazaar, then during the trip we stopped to visit the St. Naum monastery and next we returned to our hotel in Debar.**

## **Day - 4 Wednesday**

**On the fourth day we came to school again to study microsoft forms. We were divided into groups, the task was to create a quiz for another group about Macedonian or places we visited in Macedonia, we had to create groups on whatsapp and at the same time find the information we needed, after returning to the hotel we wanted to prepare for the party at 8 p.m. It was one of the best parties I have been to, we have a lot of photos from it because Macedonians took their cameras, I think that thanks to this party we knew each other even more than at any meeting before, I don't remember when exactly, but we came back to the hotel very late.**

## **Day 5 Thursday**

**On the fifth day we went to the capital of North Macedonia - Skopje. we had to get up early because the road from Debar to Skopje takes about 2 hours. after arriving, we visited the house dedicated to St. mother Teresa from Kolkata and we visited the center of Skopje, then we visited the huge national museum of North Macedonia, before returning to Debar we went for lunch and we did some shopping in the largest shopping mall in the Balkans - East gate. Prices in Macedon are lower than in Poland so we could buy a lot of things.**

## Day 6 Friday

On the fifth day, we went to school in debar for a workshop with the quiz making app - Quizizz. Just like on day four, we had to create a quiz for another group, this time in the Quizizz application, after finishing the workshops we ate dinner in a restaurant, had a short Debar tour and even though it was 4pm we had to go back to the hotel. we were leaving at 11 pm so we had plenty of time to pack up and say goodbye to other groups. they were all sad and happy at the same time because they managed to create fantastic memories.
