Rodzina Addamsów (ang. Addams family) fikcyjna rodzina będąca bohaterami komiksów, filmów i seriali. Ich twórcą był amerykański rysownik komiksów Charles Samuel Addams.

Addamsowie to potworna rodzina masochistów, sadystów i potworów.

Polecam ten komiks, serial oraz kreskówkę ....

Mieszkają na bagnach w ogromnym, zapuszczonym dworze. Ich dom pełen jest narzędzi tortur, ukrytych przejść i pułapek. Mimo to filmy i komiksy o Addamsach nie są horrorami, ale parodiami horrorów, pełnymi czarnego humoru i zabawnych scen.

# Guns N' Roses

Guns N' Roses have been credited with reviving the mainstream popularity of rock 'n' roll, at a time when popular music was dominated by dance music and pop metal. Their late 1980s and early 1990s years have been described as the period in which they brought forth a

"hedonistic rebelliousness" reminiscent of the early Rolling Stones.

Guns N' Roses (sometimes abbreviated as G N' R) are an American hard rock band, formed in Los Angeles, California, in 1985. The classic lineup, as signed to Geffen Records in 1986, consisted of vocalist Axl Rose, lead guitarist Slash, rhythm guitarist Izzy Stradlin,

## TEDDY BEAR

- Whew! I do not want any more to play with the naughty child. Bite me, throws in a corner, if I were a rag!

Thus spoke funny, teddy bear, with one ear now almost irrelevant, who tried to pull his paw trapped in the drawer

beside the bed. Ludwik, his master, came in the room, and mom had to lead

him to the dentist. Thanks to this toy could talk freely among themselves.

- You are complaining about? But I think that it distracts me to the door, wheels, broken wings! - Said the green toy car,

abandoned in the middle of the room.

- And what am I to say? Look, as I arranged! I do not have legs, I miss the one hand - said the clown, sitting on the edge of the radiator.

- As I see it, none of us was not treated lightly - said a small truck, all

went to his room, his first instinct was to kick

toy cars. But what a shifted completely and Ludwiczek almost fell because he lost balance. Our friend - disappointed - he wanted to "comfort" to his wounded Puppet, but he could not pick it up: clown seemed to be glued to the floor.

This time, really angry. Why not have fun? He looked at his bear. How sad he looked in that uncomfortable position, with his paw trapped

# NORWEGIAN FOREST CAT

Norwegian Forest Cat - natural cat breed adapted to living in cold climates  
Origin.

The origin of the breed in areas Scandinavia is not exactly defined. One theory is that the ancestors of these cats

were brought by the Crusaders; another, that by the Vikings in the British Isles. In

the 70s Twentieth century has received master race and was recognized by the FIFe. Appearance Sixmonth kitten breeds Norwegian Forest Cat is a cat big, sturdy construction,

belongs to the cats półdługowłosych. His hind legs are longer than the front, allowing easy agility and jumping. It has two types of hair - long hair surface and shorter husky, fluffy undercoat. This covers almost impossible wetting the fur.

BY DARIA

A characteristic feature of the Norwegian cat is ruff around the neck and

"trousers" on the

hind legs. Complementing the "wild" appearance are "tufki" at the top

of the ears (like a

lynx) - only the ears are covered with a coat. The head is shaped like an equilateral

triangle with a straight profile. Adult males

reach 6-9 kg, females about 5-6 kg. The colors of fur Norwegian Forest Cat is present in almost all known color varieties. Do not occur in the colors of the signs characteristic syjamów, chocolate and lilac. Eye color consistent with the color of fur. Norwegian cat fur is hardly no pilling. Just brush them once a week, only during the moulting more

frequently...

**FOOD**

The best diet is to him meat varied from time

to time fish.

**CURIOSITY**

*Breeder's greatest dream is to get through his cat title World Winner (Winner of the World) at the World Expo, an annual FIFe in another country.*

# YORKSHIRE TERRIER

The Yorkshire Terrier is a small dog breed of terrier type, developed in the 19th century in the county of Yorkshire, England to catch rats in clothing mills. The defining features of the breed are its size, 3 pounds (1.4 kg) to 7 pounds (3.2 kg), and its silky blue and tan coat. The breed is nicknamed Yorkie and is placed in the Toy Terrier section of the Terrier Group by the Fdration

Cynologique Internationale and in the Toy Group or Companion Group

by other kennel clubs, although all agree that the breed is a terrier. A popular such as the Australian Silky companion dog, the Yorkshire Terrier has also been part of the development of other breeds, such as the Australian Silky Terrier.

## In America

The Yorkshire Terrier was introduced in North America in

1872[15] and the first Yorkshire Terrier was registered with the American Kennel Club (AKC) in 1885.[24] During the Victorian era, the Yorkshire Terrier was a popular pet and show dog in England,

and as Americans

embraced Victorian customs, so too did they embrace the Yorkshire Terrier.[25] The breed's popularity dipped in the 1940s, when the percentage of

small breed dogs registered fell to an alltime low of 18% of total registrations.[26] Smoky, a Yorkshire Terrier and famous war dog from World War II,

is credited with beginning a renewal of interest in the breed.

## BY DARIA

Yorkies need to regularly comb and cut hair, not allowed to give bad food they should be fed a highclass specialist and feeds at all times are very sensitive to cold.

## CURIOSITY:

*Yorkie dogs alone in the world do not have coat just hair*

# DINGO

The Australian Dingo is a freeroaming wild dog unique to the continent of Australia, mainly found in the outback. Its original ancestors are thought to have arrived with humans from southeast Asia thousands of years ago, when dogs were still relatively undomesticated and closer

to their wild Asian gray wolf parent species, *Canis lupus*. Since then, living

largely apart from people and other dogs, together with the demands of Australian ecology, has caused them to develop features and instincts that distinguish them from all other canines. Dingoes have maintained

ancient characteristics that unite them, along with other primitive dogs, into a taxon named after them, *Canis lupus dingo*, and has separated them from the domestic dog, *Canis lupus familiaris*. Dingoes play an important role in

BY DARIA :)

Australia's ecosystems; they are apex predators and the continent's

largest terrestrial

predator. Because of their attacks on livestock, dingoes and other wild

dogs are seen as

pests by the sheep industry and the resultant control methods normally run

counter to dingo conservation efforts.

Today, it is estimated that the majority of the modern "dingoes" are also descended from other domestic dogs. The number of these so-called dingo hybrids has increased significantly over the last decades, and the dingo is therefore now classified as vulnerable. The dingo has several names in both scientific and nonscientific literature, of which the word dingo is the most

common term. Furthermore, on the Australian continent, the term wild dog is

now used very often in both areas. In most cases this term includes dingoes, dingohybrids, and all other feral dogs. **CURIOSITY**

In Australia it has been observed as a dingo dog moves the table to be able to reach food. Another time, pushed the plastic shed and sat on it to get a better view of the surroundings.

# Play and learn!!!

Witam!

W tym numerze zajmę się stronką:

<http://learnenglishkids.britishcouncil.org/en/>.

(Kolejny numer z "cyferkami"). Yeah!

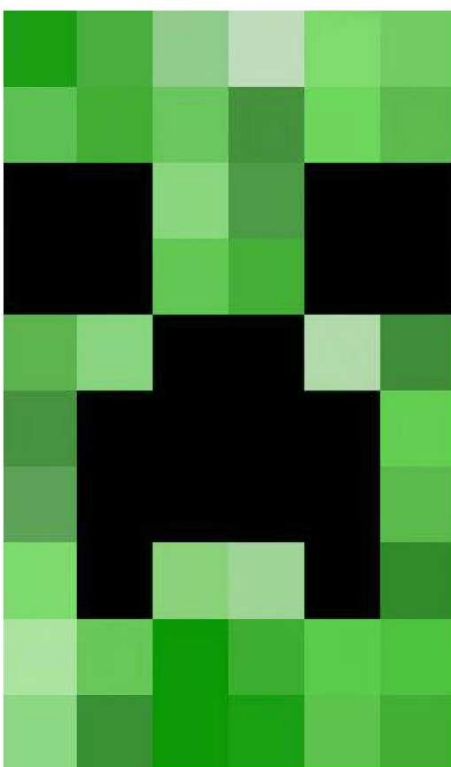

2. Aby znaleźć na niej gry można...  
a) wejść w zakładkę "kids game";  
b) kliknąć "gry"...

3...  
c) wybrać grę z ulubionych.

Teraz na pierwszym miejscu jest "Santa Run".  
Ma cztery "gwiazdki".

8. Ta gra polega na odszukiwaniu różnych angielskich słów z rozsypanki. Za każde słowo dostaje się pewną ilość punktów.

7. Wróćmy teraz do mojej ulubionej gry "Wordshake".

6. Ta gra polega na byciu Świątym Mikołajem. Jak on musimy przeskakiwać, ślizgać się, innymi słowami unikać innych przedmiotów i nie dać się zabić - standard.

1. Strona główna jest bardzo kolorowa, pełna różnych obrazków.

5. Lecz a razie zajmiemy się "Santa Run".

4. Moją ulubioną jest "Wordshake". Również ma 4 "gwiazdki".

9. To już wszystko w tym numerze...

10. Przygotował

# SYRIAN HAMSTER

by Daria

Syrian hamster is the homeland of Asia Minor [3] [2], where he lives and semiarid desert areas, it can also meet in crop fields. Golden color fur (hence the Latin name auratus - gold) makes it difficult to observe this rodent in the wild, so little is known about its biology and behavior. Syrian hamster was first described in 1839 by a British

zoologist named Waterhouse and *Cricetus auratus*. Given that this species is not distinguished

by some special features, not interested in them too. With time, it was observed less and less, until finally they were considered extinct species. Only in 1930, Professor Aharoni at the University of Jerusalem, conducting excavations in the vicinity of Aleppo in Syria, he found a female with 12 young. Because animals found in 1930 were slightly higher than those

found by Waterhouse, have been described by its Latin name *Mesocricetus auratus*. However, .

Others believe that these three (some believe that the four) young went to England, to London, and only then went through offspring, while those who remained in Syria died.

Anyway, we know that all Syrian hamsters of the world are derived from three or four animals. By

combining and breeding of hamsters received a further depleted offspring, where, due to mutations in the emergence of new qualities of body and coat. Despite the survival of the species from extinction, Syrian hamsters did not raise much interest. Only when in 1938 went to the United States as laboratory animals began their career.

information about their further fate is not harmonized. Some studies of hamsters authors reported that most of the animals did not survive the

road to Jerusalem, and fell, while the other - one male and two female, proliferated after three months, and only their descendants set off to conquer the world.

# JUSTIN BIEBER

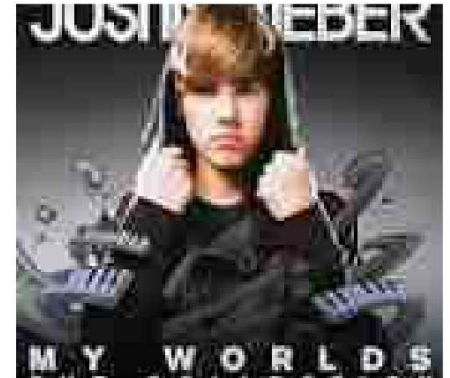

Justin Drew Bieber (March 1, 1994) is a Canadian pop/R&B singer, songwriter and actor. Bieber was discovered in 2008 by Scooter Braun,[8] who came across Bieber's videos on YouTube and later became his manager. Braun arranged for him to meet with Usher in Atlanta, Georgia, and Bieber was soon signed to Raymond Braun Media Group (RBMG), a joint venture between Braun and Usher, and then to a recording contract with Island Records offered by L.A. Reid. Bieber's debut single, "One Time", was released in 2009

and peaked in the top ten in Canada and charted in the top thirty in several international markets. His debut

album, the seven-track EP *My World*, followed in November 2009, and was soon certified platinum in the United States. He became the first artist to have seven songs from a debut album chart on the Billboard Hot 100. Bieber's first full-length studio album, *My World 2.0*, was released in March 2010. It debuted at number one or within the top ten in several countries and was certified platinum in the United States. It was preceded by the worldwide topten single, "BABY". The

music video of "Baby" is currently ranked as the most viewed and most discussed YouTube video. Bieber followed - up the release of his debut album with his first headlining tour, the *My World Tour*, the remix albums *My Worlds Acoustic* and *Never Say Never* The

Remixes, and the 3D

biopicconcert film *Justin Bieber: Never Say Never* which had an opening weekend gross that nearly matched the record for the biggest opening weekend for a concertfilm. Bieber released his second studio

album, *Under the Mistletoe* in November 2011, which debuted at number one on the Billboard 200. Bieber has received numerous awards, including Artist of the Year at the 2010 American Music Awards
