NEVER ENDING STORY

On June 2nd in our school there was the second picnic, this time however, on a different topic "Fairy Tales". Each class drew out a lot to present a fairytale and prepare props and food related to it. At the end there were the results and awards for the best stall and presentation.

Here they are. The best performance: was by 6B who performed "Aladdin's Lamp", 2nd place went to 4A for "Orphan Mary and dwarfs", 3rd place was won by 4C for "The Snow Queen"

FAIRY TALES RETOLD

Beauty and the Beast

One day a queen gave birth to the king's son.

He was beautiful. Everyone in the kingdom just called him this way: Beauty. The prince grew up soon. He loved fighting and tournaments. However, his mother tried to make the son change his interests. A few days later some bad news was brought to the kingdom: there was a creature destroying villages

around the kingdom. The beast was terrible, ugly like a nightmare. The king sent his army to fight against the beast. Beauty also wanted to fight but wasn't allowed. But he was smart and ran away to the

war. All people in the

kingdom were scared to fight except for Beauty. He was very brave and almost defeated the Beast. When he was about to make the final blow

suddenly he saw something in the eyes of the beast, she seemed to do the same. They fell in love. A great wedding in honour of them was

WOLF

Do you know the story of Little Red Riding Hood and a big bad wolf?

Many people believe that a wolf is very dangerous for man. Well, the truth is that wolves are not so bad

as we think. Moreover, they try to avoid human beings and they do not attack grandmas or little girls in the forest.

A wolf is a mammal of the dog family. It occurs in the forests and steppes of Eurasia and South America. It is a very intelligent animal. The greatest representative of the family reaches the length of 150 cm with a bushy tail up to 50 cm. The biggest specimen weighs up to 75 kg. Its fur is yellowish grey, with

a distinct darker saddle on the back. . They are mainly active during the night. Wolves live as singles or in pairs. In winter, they make big herds that hunt together for large prey such as deer, wild boars and elks. They are very fast and

strong. They reach the speed of 60 km / h (even at a distance of 10 km!) The wolf needs about 800 kg of food every year. Pregnancy lasts 60-65 days. A female, called a shewolf, gives birth

to 1-12 cubs. But it is the male (hewolf) which takes care of them. Young wolves are mature when they are about 3.

Protection

Once the wolf was viciously exterminated, which led to a drastic decline in the population of this species. It is taken under protection in many countries. Also in Poland wolves are

subjects to strict protection of species, except for some regions (Podlasie and the Subcarpathian area).

ENDLESS SUMMER...

Summer fashion

Women's fashion

What's fashionable today is a dress on straps. The best are the colours of summer, For Instance, light blue, red, white with flowers or something interesting. Dresses are very nice. I've seen a lot of people in these. A lot of kids wear such clothing. Adults mostly prefer these in one colour only.

Nowadays, coloured shorts became very fashionable. They are comfortable and look good. Most of them come in such colours as blue, pink, green, white, purple and many more..

Also the tops tied on the neck are cool. They are fantastic especially for the summer heat. The best, of course, are the coloured ones with patterns.

Do you like summer and summer new fashion?

Summer!

Many people wear flipflops in various patterns. The most common models are the flowers. They are suitable for their colour. For instance, black flip flops with white flowers. Wow!

It is cool in the summer to paint your nails in bright colours. For example, in yellow, green or orange !!!
