## Curiosities of the animal world

### *Cat the thief*

18-month- old cat Denis from Luton in the United Kingdom is an exceptional thief. He steals neighbours' items including: thongs,

men's boxer shorts, car wash sponges, towels, toys, pants and shoes. It is very bold. One day he took from a neighbouring property one sandal, and the next day as if nothing had happened the other matching shoe. Mrs. Lesley

Newman caught him for his criminal activity. In the garden she saw strange items that did not belong to her. She put them into boxes, and later visited her

neighbours to give their property back. Lesley does not know how to change improper habits of her pet. Meanwhile, the cat is becoming increasingly bold. Halls Vicly an animal psychologist says that the reason for such behaviour may be a strongly developed hunting instinct. Denis is not the first of thieving cats.
