

**June** is the sixth month of the year in the Julian and Gregorian calendars and one of the four months with a length of 30 days. The first is that the month is named after the Roman goddess Juno, wife of Jupite; the second is that the name comes from the Latin word iuniores, meaning "younger ones", as opposed to maiores ("elders") for which the preceding month May may be named.

Der **Juni** ist der sechste Monat des Jahres im Gregorianischen Kalender. Er hat 30 Tage und enthaelt den Tag der Sonnenwendeder auf der Nordhalbkugel der laengste Tag mit der kuerzesten Nacht des Jahres ist. Benannt ist er nach der roemischen Goettin Juno, der Gattin des Goettervaters Jupiter, Goettin der Ehe und Beschuetzerin von Rom.

# Sport in my life

Sports has always been very important for me. I like watching sport on TV, but also playing different games. Because I'm so keen on sports I've attend a sport class in the middle school. Even as a child I was very active and I used to play football and volleyball. I have always been more interested in team discipline than the individual ones. After finishing the primary school decided to attend a football class in the middle school in Komorniki to spend more time train my favorite sport. At school we have 10 hours of training a week. We also play a lot of matches in spring and autumn. I also love watching it live and TV. I regularly attend Lech Poznań matches at their stadium in Poznań. My favorite player is Aleksandar Tonev. My favorite club team is F.C Barcelona, because I admire their football style, technique and the players. I especially like Leo Messi, Andreas Iniesta, Xavi Hernandez. The best national teams are Spain and Argentina. I always cheer them when they play in The World Cup.

## Lionel Messi

Lionel Messi was born 24 June 1987 in Rosario as a child, Jorge and Celia. The adventure began with the ball at the age of five years, when he enrolled in the local club Club Grandoli. He then moved to Newell's Old Boys. When he was 11 he was diagnosed with pituitary dwarfism. Family could not afford treatment, but a hand reached out FC Barcelona, who invited

Messi to Catalonia and paid for treatment of Leo. As it turned out it was a hit, as the Argentinean from year to year became more and more star youth teams until he

made his debut in seniors. On 16 October 2004 Messi made his first appearance in a league match FC Barcelona. He was 17 years and 114 days. It's been a few months and Argentine scored his first goal for the

Spanish football fields. Since then, already hit series. In the meantime, also made his debut in the Champions League, the Catalans faced then with Udinese Calcio. Year after year,

Lionel Messi became increasingly the star, and today may well be regarded as the best player champions Spain. Most impressive in its execution proved to be the seasons 2008/2009, 2009/2010 and

2010/2011. It is then that the Argentinean played 159 matches for Barca, scoring 138 goals in them! In the meantime, expanded its account of a number of shooting trophies. (Norbert Szermer)

## Sport, sport, sport

Sport ist deshalb so wichtig fuer die Gesundheit, weil dadurch, unter anderem, das Herz und der gesamte Kreislauf gestrkt wird und somit das Risiko, an den Zivilisationserkrankungen zu leiden, vermindert wird. Das Herzinfarktsrisiko, das Schlaganfallsrisiko und das Risiko an Krebs zu erkranken wird ebenfalls

verringert und sportlich Aktive laufen weniger Gefahr an Koronaren Herzerkrankungen (CHDs) zu erkranken.

## SUGGESTIONS FOR A LONG WEEKEND

Coming up next "long weekend"  
You don't know what to do? We'll help you!

The first proposition is an aquapark in Malta in Poznan. You can spend there all day and you won't be bored! There are waiting for you a lot of attractions for example: water slides, "wild river", jacuzzis And many more! You have many options to choose: you can swim in the open air or in a closed room! Next proposition is a visit to the Old Market Square in Poznan. You can see beautiful old houses You can drink a good coffee in a cafe At 12 you can see the goats in the town hall. It is a symbol of Poznan! If you have younger brother or sister, you can visit the ZOO in Poznan There are lot of exotic animals, for example: giraffes, elephants, crocodiles, tigers. This is also a great place for walking! If you like watching films, you can go to cinema! I hope, that on free days you won't be bored!

## Berlin, Berlin, Berlin, Berlin

Berlin erlebt seit seiner Gründung im 13. Jahrhundert eine wechselvolle Geschichte. Ausgrabungen im Jahr 2008 zufolge, ist die Stadt sogar

noch lter als bisher angenommen: Landesarchologen fanden eine Eichenbohle, die vermutlich bereits aus dem Jahre 1183 stammt. Kaum eine andere Metropole war so oft grundlegenden Vernderungen unterworfen und hat ihr Gesicht so hufig verndert. Whrend die Bedeutung Berlins

stetig stieg, gab es einen Wechsel glanzvoller Epochen und dunkler Zeiten. Doch die Stadt hat es geschafft, von einer geteilten Stadt zu einem pulsierenden Zentrum Europas zu werden.

Hauptschule (niem. szkoła główna) - niemiecka szkoła osiągająca stopień przygotowania do nauki zawodu. Uczęszczają do niej uczniowie, którzy ukończyli czteroletnią Grundschule (niem. szkołę

podstawową). Hauptschule liczy 5 lub 6 klas (od klasy 5 do 9 lub 10); w 8 klasie istnieje możliwość dodatkowych zajęć (niem. Zusatzunterricht), do których są dopuszczani uczniowie ze średnią

ocen 3,0 (w niemieckim systemie oceniania), aby po ukończeniu 9 klasy mieli możliwość awansu do Realschule (niem. szkoły realnej). Po ukończeniu Hauptschule uczeń

otrzymuje świadectwo ukończenia szkoły głównej (niem. Hauptschulabschluss), a po ukończeniu szkoły realnej Realschule świadectwo ukończenia szkoły realnej (niem. Realschulabschluss),

który po dodatkowym kształceniu może dać uczniowi szansę na zdawanie matury. Hauptschulabschluss nie daje tych możliwości; można wtedy jedynie przysposabiać się do zawodu.

# Before going to the **Vinnica**

Our students will soon travel to Vinnica, Ukraine. I was there with my family three years ago. It is a modern city, a little smaller than Poznan. It belonged to the Polish Kingdom in the past. I remember very wide streets and large parks. The place I especially liked was the Museum of Pirogov. Nikolai Ivanovich Pirogov was a Russian doctor. He was the father of modern surgery. He lived in the nineteenth century. The museum is located in the house of Pirogow. The house is surrounded by a beautiful park. The garden is filled with flowers and medicinal plants. Everywhere in the house you can see surgical instruments. In the big jars fragments of human bodies are kept. Pirogov created an excellent atlas of anatomy. He invented anesthesia, developed a way to amputation of the foot. He was the first one who treated fractures with plaster. In a small house next to the main building you can see the Wax Museum. Nearby is the church, which there is the embalmed body of Pirogov.

I hate .....

Most people who have siblings, does not like it. In the family there are arguments, but between two people growing up repeating this very often. Well - as alleviate the conflict between siblings, what do you do when you have to share a room with her younger sister or brother, and that being an only child is that bad? The answers to all

these questions can be found in this article. It often happens that the siblings have to share a room. For some of us it does not seem so bad, but all of us need a little privacy.

But what do you do when you ve it so? Inroom ap apartment with a sister or brother does not mean the absence of their own angle. Own desk, bed, shelf and divide

the room into two zones can give us a sense of privacy. Sometimes it happens that the siblings of a similar age zostaki enrolled by their parents in the same activities,

such as playing an instrument lessons, classes in the sport. When one succeeds, the other feels inferior. It follows that many conflicts and unnecessary arguments. In this

case, subscribe to the other activities in which you served. It's great that your sister playing the piano, and the brother of football, it does not mean that you have to.

## Wer sucht der findet.

Kto szuka ten znajduje.

## Alles braucht seine Zeit.

Wszystko w swoim czasie.

But the difference in your skills, you can also close. If you're struggling with science, ask an older sibling for help. And what an only child? There are pros and cons of being him. Crying little brother does not raise you in the middle of the night and big sister are not allowed you into the room because she invited friends. You do not have to share a

room with anyone, clothes and other belongings. However, each an only child, would to have siblings. I believe that no matter what kind of situation we are in, we should enjoy and benefit fully from what we are, because maybe in a few years this will change.
