On the left, the shield is supported by the English Lion. On the right it is supported by the Unicorn of Scotland. (The unicorn is chained because in mediaeval times a free unicorn was considered a very dangerous beast, only a virgin could tame a unicorn) The coat features the motto of British Monarchs: Dieu et mon droit which means (God and my right)

Animals

dormouse

I have a dormouse at home. It is sweet, and produces just a little noise. When I saw it in the store, I just wanted it immediately.

This is a pet which looks like a little mouse. Its life expectancy is from 5 to 9 years.

Dormice eat oat, oatmeal, corn, wheat, sunflower seeds, pumpkin seeds, flax seeds, carrots, parsley, celeries, kale, dandelion leaves, nuts, hay, grass, branches of trees (ash, sycamore, beech, apple, pear and hawthorn). Dormice do not require any specific treatment, the same is with their health care of

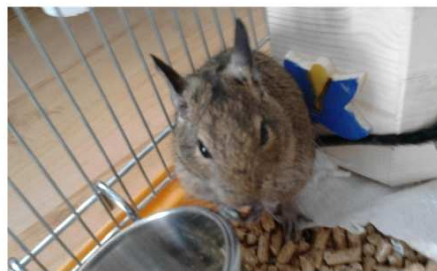

fur, and therefore they do not need either combing or bathing Also it's not recommended to cut their claws. They climb the branches placed in a cage, or run on the rough ground in our

apartment, thus they effectively file them, keeping their fixed length. Clipping their claws accelerates the growth. So you'd better not do it!
